PRANACAPS™

SAFE, EFFECTIVE & CONVENIENT

Capsules that safely harness the active properties of pure essential oils.

Actual size.

What are Pranacaps? Pranacaps are the first chemotyped and certified organic essential oil capsule line, professionally developed by internationally renowned pharmacist and aromatherapy expert, Dominique Baudoux. This line has been scientifically formulated using the active properties found in plants. Pranacaps support the body's natural immune defense, digestion processes and promotes a healthy response to daily stressors. Pranacaps are a safe, effective and convenient way to deliver the benefits of certified organic essential oils.

What Pranacaps products do you offer?

- **Mandarin/Aromastress** – Naturally supports the central nervous system from daily stressors and promotes relaxation.
- **Oregano/Natural Resistance** – Helps to support the natural immune defenses of the body.
- **Immunessence/Immune Defense** – Provides immune support during acute immune system challenges.
- **Digestarom/Digestive Aid** – Promotes digestion and relieves occasional intestinal discomfort from gas and bloating.

Why are Pranacaps safe? Pranacaps are professionally formulated and predosed capsules using chemotyped and certified organic essential oils. The capsule delivery method allows the essential oil to be transported directly into the digestive system. With our easy-to-use capsule delivery method, the safety concerns are eliminated.

Do Pranacaps contain certified organic essential oils? Yes! Pranacaps contain certified organic ingredients. The ingredient list is printed on each package in the form of a supplement facts box with instructions on serving size.

What is Certified Organic Marine Gelatin? Our certified organic "Marine Gelatin" is a blend of farm-raised Salmon and Basa Fish.

What is CTEO? CTEO stands for Chemotyped Essential Oils. Our essential oils are identified using chemotype, assuring the most effective chemical constituent profile for each essential oil's intended use.

What is the concentration of essential oils in each capsule? The exact amount of essential oil for each dose is shown in milligrams on the package. We respect the power of each essential oil drop and suggest following the recommended doses.

Are Pranacaps safe for children? Pranacaps are intended for children 12 year old and above.

Can Pranacaps be combined with other supplements? We do not offer studies on contraindications. As always, please consult your qualified healthcare professional.

What makes Pranacaps unique as a supplement? Since essential oils are concentrated, Pranacaps are very efficient and convenient in it's delivery method. With other herbal supplements, you may have to take more plant material to receive the same benefits.

How are Pranacaps packaged? Each box contains a total of 30 capsules, 2 blister packs of 15 capsules of each.

Where would Pranacaps be merchandised in our store? Many of our stores use a "structure function" set, however Pranacaps could be easily grouped together as a product line.

Is there a display or large minimums required to carry Pranacaps? No, there is no display required! We do ask for a minimum of three units of each sku ordered.

What is the opening order offer? We will honor a 15% off on all opening orders.
