INSTRUCTIONS

Follow these step by step instructions to update your essential oil display. Use the video link https://www.youtube.com/watch?v=WyF1SnZg_Gw as a guide!

15.25" x 6.75" display signage. Remove sticker back of velco adhesive strip to adhere sign to display.

New hooking system allows shelf to sit flat.

New shelf keeps product from falling.

New tester square.

Tester square locked in place.

1" x 1" clear SRP sticker.

Updating Signage

1. **REMOVE** the existing signage.
2. **LOCATE** the new signage.
3. **USE** the clear locking pegs as a guide and measure 1 inch down from the top of the wooden crossbar. Draw a guideline on both left and right sides. This guideline will help you align your new sign.
4. **REMOVE** the sticker back from the velcro adhesive strip.
5. **ADHERE** sign directly to the wooden crossbar. Remember to use your guidelines!

Changing Shelving

1. **OPEN** clear locking pegs on your display.
2. **REMOVE** each acrylic shelf.
3. **PLACE** your new acrylic shelving on each peg. Your NEW shelves will sit flat and product will not fall behind the display. Hooray!
4. **CLOSE** clear locking pegs so shelving and products are secure. Pegs may be tightened with a screwdriver to ensure secure fit.

Stocking Product

1. **TESTERS** are attached to acrylic squares. Tester squares slide into the tester strip area and lock down. Acrylic bar should click into place.
2. **SET** shelves with testers in alphabetical order from top to bottom, left to right.
3. **REMEMBER** to secure shelves with clear locking pegs.
4. **STOCK** shelves with essential oil products behind testers.

Adding SRP Stickers

1. **LOCATE** your pricing stickers.
2. **DOUBLE CHECK** that your tester squares are in alphabetical order.
3. **ADD** the SRP stickers to the front of the acrylic holder, align lower edge.
4. **MORE** pricing stickers may be ordered if you decide to change testers, etc.
